NEW PRODUCT ENHANCEMENT ANNOUNCEMENT

Tevron® Adds Full Support for Microsoft Silverlight.

CitraTest, CitraTest VU, and CitraTest APM are the only single license, integrated solutions for conducting application performance monitoring, functional, regression and latency testing for every enterprise application that is accessible from a Windows based machine.

Nashua, New Hampshire, February 19, 2013 – Tevron today announced the addition of support for Microsoft Silverlight to its suite of ETE Monitoring & Testing solutions.   Silverlight is a powerful development tool for creating engaging, interactive user experiences for Web and mobile applications. Silverlight is plug-in, powered by the .NET framework and compatible with multiple browsers, devices and operating systems, bringing a new level of interactivity wherever the Web works. With the latest releases of CitraTest, CitraTest APM, and CitraTest VU, Tevron again is taking the lead role in the ETE Monitoring & testing industry in providing support for every development environment including Microsoft Silverlight® and every application that is accessible from a Windows machine. As developers create applications with richness and interactivity out of reach of traditional web technologies via the use of Microsoft Silverlight®, Tevron's ETE Monitoring & testing solutions will continue to offer the industry lead for application monitoring, load testing, and general automation. To learn more about Tevron's automated testing solutions or to request additional information, please call +1.866.788.3650 or visit http://www.tevron.com.
