Tevron® Introduces Secure-Parallel Monitoring Support for its APM Solutions.

Tevron® Introduces Secure-Parallel Monitoring Support for its Flagship APM Solutions.

Nashua, New Hampshire, June 24, 2004 – Tevron® today announced the support for

“Secure-Parallel Monitoring” for its flagship APM solutions, CitraTest® and AcuTest®.

Through the deployment of Tevron’s APM solutions, every application across the enterprise can be accurately measured and actively monitored allowing for the enforcement of all SLAs. By providing the ability to perform “Secure-Parallel Monitoring”, now a single monitoring machine can remain in a “logged off” state from a specific point of presence in the enterprise and execute and measure real-world user transactions concurrently ensuring security and further expanding the overall coverage bandwidth.

“Because Tevron’s APM solutions are completely independent of the application they are monitoring, for the first time, every application across the enterprise can be monitored with one cost effective solution. Every organization has numerous applications they need to monitor and our APM solutions can monitor them all. No other vendor offers such vast and all encompassing support. The days in which organizations have to pay BTO vendors a licensing fee for each application and each protocol they need to monitor are over potentially resulting in the savings of millions of dollars in licensing and maintenance fees. Through the use of Tevron’s APM solutions, organizations now have one all encompassing solution with one licensing fee that can monitor any and every application across the enterprise. This includes all legacy applications, client server applications, web applications, Citrix or Terminal Server hosted applications, terminal

emulation...every application. With the introduction of “Secure-Parallel Monitoring” support, Tevron continues to provide its customers with secure and flexible solutions. This flexibility is a must to meet the demanding needs of today’s global enterprises”, explains Jay Labadini, Vice President of Business Development at Tevron.

To learn how CitraTest® and AcuTest® can assist you with your APM requirements, call 1.702.518.7435 or visit www.tevron.com.
