

Large Government Hospital Selects Tevron for its Application Monitoring Requirements across 7 Locations

CitraTest APM selected as the best of breed solution

Nashua, NH. USA - October 25, 2011 – Tevron, the leader in IT performance and availability monitoring & testing solutions, announced today that one of the leading government hospitals whose specialized clinical programs include Blind Rehabilitation, Spinal Cord Injury, Neurosurgery, Radiation Therapy and Cardiovascular Surgery, deployed CitraTest APM (<http://www.tevron.com/citratest-apm.asp>) across their 7 US locations for the monitoring of all of their mission critical business & medical applications. The hospital hosted over 600,000 patients visits in 2010.

Tevron was selected based on their powerful & flexible IT monitoring technology that fully supports every one of their complex applications and environments (Windows 7, Windows XP, Citrix). Having one enterprise monitoring solution that intelligently supports every application is invaluable and extremely cost effective. Unlike the products from other vendors, Tevron offers a tightly integrated, simplified and scalable solution that meets the needs of their complex healthcare business and their ever changing technologies.
